

Fruitful summer holiday at Oaktree

Lots of Mandarin speaking opportunities and happy moments!

Our little storytellers waved for your votes! Each of them chose his or her favorite art work and talked about it using their own imagination. They also learnt to listen to others and appreciate their stories.

Sam is so proud of his hand-made pizza, look at his smile! The pizzas were really yummy!

Matthew, Talia and Tomas had so much fun baking cup cakes in the cooking class. They mixed the flour and water in appropriate portions to form dough. Look at their happy faces!

The students were very serious about experiment on the speedboats they made. They learnt that it was driven by elastic force in the plastic string.

Justin loves his Chinese-style Panda painting.

"Mum & Dad, I learnt to clean my teeth right today!"

21 students attended the dental care demonstration given by Dr Wu last Friday morning. Look at the photo on the right, they were so attentive as they learnt about selecting the right toothbrush and using the right brushing techniques.

Sienna was so excited she rushed to the front and volunteered to show her friends how she cleans the tooth brushing model with a toothbrush.

Other students eagerly followed and queued to do the same. They took turns to clean the model as they listened carefully to the nurse's instructions.

*Keep me white,
Clean me right!*
